

Objective : Digital monitoring and alert project for 5 melting operations at 1 furnace

Investment :
After ₹85,000 discount
₹36,480 / month + ₹3.4L (one-time Setup)

Key Points:
- Hardware(server + camera) rental included in the price
- AMC is not required

Inclusions:

- Furnaces : 1
- Operations: 5 (Temperature Check, Deslagging, Bath-Sample, Final Sample, Tapping Temperature)
- Features:
 - Live Operation Detection
 - Console Alert when Operation is Missed and Alert Management
 - Console Alert when SOP Sequence is skipped
 - PDF Report - Violation Summary (Missed Sequence and Missed Operation)
- Setup (One-Time) Sensor, Compute, Networking, Site Specific Setup
- Hardware

Exclusions:

- Cabling (data/power cables)
- No dedicated Console devices are provided (your existing melting area machines/laptops are good enough)

Notes:

- Quote valid until 26/09/26, or our capacity gets full: whichever comes first
- GST not included in the quote
- This quote is for alignment purposes and not comprehensive for contractual purposes.
